Dear Ms Mackinnon

The Fairness Commission considered your letter at their meeting on 10 November, and agreed that the issues raised fall out with the scope of their work, which at this point aims to learn more about how people living in the area experience poverty and inequality in their everyday lives.

I have been advised that the points in your letter have been addressed previously by colleagues from the Council's Planning & Development, and Air Quality functions, and that you are currently considering an offer of mediation / independently facilitated conversation, made by the Director of The Environment Service.

Thank you for taking the time to write to the Fairness Commission – I trust this information is helpful.

Yours sincerely

Councillor Archie MacLellan
Ward 12, Perth City Centre
