

Planning and Development,
Perth & Kinross Council
35 Kinnoull Street,
Perth. PH1 5GD

1st February 2017

Dear Sirs,

Proposed Development Scone North Housing
Application No. 16/02127/IPM

The above application was registered with Perth & Kinross Council on 12th December 2016.

We have examined the submitted documents and find that there would appear to be serious mistakes in the process, which are incorrect and out with the required standards.

We not only register our objection to the application but we would ask that the application be called in for further scrutiny before continuing with any consideration process.

In substantiation of our objections we enclose a summary list of our comments/objections

In order to ensure that our comments were based on material considerations, as a Community Council we have employed Ironside Farrar as our consultants. Their remit was to review and provide comment on the adequacy of A&J Stephen's proposals, contained in their Environmental Statements.

We enclose a copy of their audit document as substantiation of the basis of our own comments.

We trust that our comments/objections will be given due cognisance as part of your assessment of this application.

Yours faithfully
For Scone & District Community Council

Hazel MacKinnon
Secretary
